God bless whoever sent you  
I really really do  
God bless whoever sent you  
I really really do

You're much too beautiful  
To be part of the human race  
Whoever carved those features  
On your angel face  
If I put on a pedestal  
Girl that's where you belong  
I'm building my world around you  
So please don't let me down

(God bless whoever sent you)  
(Cause I really need you)  
(God bless whoever sent you)  
(Cause I really need you)

Ohh, you could take a sinner  
And turn him into a saint  
You took a nervous a guy like me  
And made me somethin' that I ain't

Oh, my life was like dark room  
Until you gave me your love  
Now you walk uplon?  
Girl you're just too much

(God bless whoever sent you)  
(Cause I really need you)  
(God bless whoever sent you)  
(Cause I really need you)

Hallelujah, hallelujah, hallelujah

This?  
Oh, they really do  
Girl I get butterflies  
Every time I look at you  
Honey what I find in you  
I ain't find in anyone else

And if the man above  
Made anything better  
He kept it for himself

(God bless whoever sent you)  
(I really need you)  
(God bless whoever sent you)  
(I really need you)

Ohhh, and every day and every way  
I really wanna say  
I really needed you

(God bless whoever sent you)  
(I really need you)  
(God bless whoever sent you)  
(I really need you)

(God bless whoever sent you)  
(I really need you)  
(God bless whoever sent you)  
(I really need you)
