

The Orion Experience

"I Love The Stars"

Visit "[I Love The Stars](#)" on MotoLyrics.com

I love the night, I love the mystery,
I love to gaze into infinity.
Little lights that lead as far as I can see.
I love the way they seem to wink at me
I love to think about a possibility
Of a world where you care for me.

I love the stars
J'adore les étoiles
I love to make believe the universe is ours
I love the stars
J'adore les étoiles
I believe that somewhere out there,
You and I make love together
On and on and on
I love the stars.

I love the way they shine, I love the fantasy,
I love to stare into eternity.
Let my mind become a wave upon the sea.
And then I race across the galaxy,
Far away beyond reality,
To a world where you care for me.

I love the stars
J'adore les étoiles
I love to make believe the universe is ours
I love the stars
J'adore les étoiles
I believe that somewhere out there,
You and I make love together
On and on and on
I love the stars.

Someday we'll be together baby,
The Sun and the Moon, and the stars will align.
Somebody up there loves us baby,
Cause it's written in the stars that shine.

I love the stars
J'adore les étoiles
I love to make believe the universe is ours

I love the stars
J'adore les étoiles
Long ago, you will be mine.
I've loved you since the end of time.
Yeah on and on and on
I love the stars.
Yeah on and on and on
I love the stars.
