Feel this love
Feel this love
Feel this love
Feel this love

Seek the truth, not what you can find
Need a new sensation, leave the world behind
Tonight I'll think about you, try somehow to
Tonight I'll think about you, try somehow to
Feel this love
Feel this love
Feel this love

Second place is harder to find
Use your limitations leave your world behind
Sometimes I'll dream about you, try hard not to
Tonight I'll stay without you, until I need to feel this love
Feel this love
Listen to your heart
Every single word that to say worries me
Listen to your heart

Tonight I'll think about you, try somehow to
Tonight I'll about you, till I need to feel this love
Feel this love
Feel this love
Feel this love
Listen to your heart
