it breeds contentment for the lower classes,
like marx said, it's the opiate of the masses
we don't bow down to religious fascists,
they can kiss our collective asses
i'm not trying to force you to my point of view*,
just listen to what i'm saying for a moment or two
just cuz you were brought up on fudge vanilla swirl,
doesn't mean that you can't see other options in this
world
so many religions offer insight but at most only one is
right,
or they could just all be wrong, either way i don't need
one to be strong,
* we didn't notice my lyrical screw-up until well
after the recording was finished
