(GUITAR INTRO)

Runnin' fast climbin' to the sky

A piece of pie hit me in the eye

Tidal wave got me on the run

Now I'm out lookin' for an answer

Got a date with a Spanish dancer

Butter weighs half a ton
I'm in love and I'm never gonna come back down

I'm in love and I'm never gonna look back now

Oh, Lord, you don't need a reason,

Wooh to be saved
Walked in turned on the light

I didn't know I turned on the night

Cadillac set to roll

Now I'm doin' double back-flips

Turned the key but the fan belt slips

Saddle packs a heavy load
I'm in love and I'm never gonna come back down

I'm in love and I'm never gonna look back now

Oh, Lord, you don't need a reason,

Wooh to be saved
