He said he's got his name on it
Well I don't think he's getting in
The problem in his mind, he needed alibis
They all question what he said

And she didn't listen to what he said
An idol to do what he was dared
They took him out and put him down
He's on the floor
They swiped his money and took his score

You'll never know what's going on
You'll never know what is right and what is wrong
You told them lies, you break the rules
But false allegations is something else
That's not the ru-u-u-ules

He said he's got his name on it
I don't think he's getting it
The problem in his mind, he needed suicide
They all question what he said
I'm sure they said

You'll never know what's going on
You'll never know what is right and what is wrong
You told them lies, you break the rules
False allegations

You'll never know what's going on
You'll never know what is right and what is wrong
You told them lies, you break the rules
But false allegations is something else
That's not the rules

You'll never know what's going on
You'll never know what is right and what is wrong
You told them lies, you break the rules
False allegations is something else
That's not the rules
