You say you've been waiting, waiting for someone,  
Waiting for some song, waiting since you were born  
For a moment when everything's alright,  
And everything's all white, but I just can't wait anymore

Hey Paul where have you gone? I wanna come along  
Hey Paul what went so wrong? What went so wrong?

Have you gone away or been left behind,  
You know that I don't mind, you know that you're my  
kind,  
'Cuz when I hear churchbells or when I see fireflies,  
You know that I don't lie, one of these days you'll  
belong

Hey Paul where have you gone? I wanna come along  
Hey Paul what went so wrong?  
Hey Paul where have you gone? I wanna come along  
Hey Paul what went so wrong? What went so wrong?
