We got pretty neon veins and streets straight and wide
All the surfers look the same and all the suburbs go for
miles
Got bells in a tower that ring in every hour
Hangin round
In my sleepy little deathtoll town

We got readings from the good book and preachers
going bad
Got drunks in the parks in their brown paper bags
The sailors hit the streets now to pick up any disease
going round
In my sleepy little deathtoll town

And it rains down so damn hard in this city
Don't it cleanse our souls man
Don't they shine pretty like a crown
In my sleepy little deathtoll town

And all the girls are dreaming
Of screen stars and health spa's
Of facials and massage
And all the boys
The boys just want the girls to settle down
In my sleepy little deathtoll town

And it rains down so damn hard in this city
Don't it cleanse our souls man
Don't they shine pretty like a crown
In my sleepy little deathtoll-

Life and death beach guards
Helping anyone who wants to drown
In my sleepy little deathtoll-
Crash your cool cars kids and watch the citizens all
gather round
In my sleepy little deathtoll town
