Its cold in december, around here  
and i cant remember the weather last year

On again off again, i wasted my last few nights here in  
town  
on again off again..

Its hard to imagine, the things that i did  
And harder to stomach, the things that i've said

On again off again, wasted my last few nights here in  
town  
on again off again..

And i want you to know  
that i couldnt show  
and i want you to know  
that i couldnt show the pieces unknown

its hard to believe, that your pretty eyes cry and i  
couldnt try so goodnight  
and i cant believe, that we're here holdin hands, is  
there a chance, that you'd like to dance with me?  
Well ill wait and see
