What we got is a beautiful thing
What we got is a beautiful thing
What we got is a wonderful beautiful magical thing
All I needed was a hand to hold
A solid look that would never let go
What we got is a wonderful beautiful magical thing
When I'm with you....
Got the windows down.....

When I'm with you....
There gonna hear this all over town
Singing what we got is a beautiful thing
What we got is a beautiful thing
What we got is a wonderful beautiful magical thing

When I'm with you....
Got the windows down.....

When I'm with you....
There gonna hear this all over town
Singing what we got is a beautiful thing
What we got is a beautiful thing
What we got is a wonderful beautiful magical

Unrepeatable totally unbeatable
We got a wonderful beautiful magical thing
What we got is a beautiful thing Oh beautiful thing
What we got is a beautiful thing Oh yeah yeah
What we got is a beautiful thing
What we got is a beautiful thing
