"Living It Down"

Visit "[Living It Down](#)" on MotoLyrics.com

He got home about breakfast time
Saw me cooking heard the baby crying
He tried sneaking into our bedroom
I came running with a swinging broom
He lived it up all over town
And now he's living it down

He's living it down at his best friend's house
Down on his best friend's couch
Down on his bended knees
He's begging honey won't you forgive me
He lived it up all over town
And now he's living it down

So now he's living out of his suitcase
In a corner of his buddies place
I don't think that he can take this long
All he wants to do is come back home
He lived it up all over town
And now he's living it down

He's living it down at his best friend's house
Down on his best friend's couch
Down on his bended knees
Begging honey won't you forgive me
He lived it up all over town
And now he's living it down
