"Small Stuff"

Visit "[Small Stuff](#)" on MotoLyrics.com

Life's too short to sweat the small stuff
After all it's all just small stuff
We've only got one life to live
Let's live it all night long It's a waste of time sitting
crying
'Bout things you can't control
No need to sweat it just forget it
Come on baby come on

When it's all said and done
It's all about having fun
Don't waste time looking over your shoulder
Before you know it it's all over

Go to work go to bed
Get up and start it all over again
Now there's a reason we're on this earth
And I'm gonna get my money's worth

There's no reason to get too excited when it starts
hitting the fan
Why do little things and big worries have to go hand in
hand
