Back through the pages of history  
She's been the backbone of the family  
Loyal strong tender and wise It should come as no  
surprise  
She can heal a man's hurt with amazing grace  
Put a smile back on a baby's face  
She's a fulltime lifetime dedicated mum  
Family is number one

Superwoman  
3 kids a husband and the washing on the line  
Superwoman  
Bet she'll even make it to work on time  
She's a mystery a rare commodity  
Boy's you'd better tip your hat To superwoman  
There's no denying it a fact's a fact  
She's a superwoman and that's that

Call it intuition call it double dutch  
Nothing comes close to a woman's touch  
She radiates beauty inside and out  
Dressed up to the nines she's a real knockout  
You know she's a qualified taxi driver teacher chef and  
nurse  
And with all the things that are sent to try her she'll  
tackle them head first

We are all one  
Hero's unsung  
Superwoman
