The healing power of helpless laughter
Will keep us well forever after
We can lose ourselves and find each other
In the healing power of helpless laughter

The healing power of helpless laughter
Will be ours in all disaster
We'll bring the roof down and then the rafters
With the healing power of helpless laughter

It can turn a stranger into a lover
Help us carry one another
Out of rooms we won't remember
To the shelter through the rain

The healing power of helpless laughter
Will keep us well forever after
We can lose ourselves and find each other
In the healing power of helpless laughter
