Anybody can find someone
To rev 'em up and turn 'em on
And baby it's a lot of fun but then what
When a little time has past
You take off your Mardi Gras mask
That's when you know if you really have the right stuff

Truly true love
It's full on fightin' then kissin' all night even though I
know I'm right and you're wrong
Truly true love
Baby it's the glue keeping me and you holding onto
what we know that we couldn't do on our own
Making love when we first wake up
That's the icing on the cake but
Seeing me without my make- up
That's truly truly

We've been down and up and down
Thought of throwing in the towel
And we're far from perfect now but so what
'Cause it's about the ride we take
And the memories we make
And the way the earth still quakes when we touch
Truly true love
It's full on fightin' then kissin' all night even though I
know I'm right and you're wrong
Truly true love
Baby it's the glue keeping me and you holding onto
what we know that we couldn't do on our own
Making love when we first wake up
That's the icing on the cake but
Seeing me without my make- up
That's truly true love
