I've never seen you look so beautiful
Girl you're making me cry
You walk toward me on your daddy's arm
And I see a tear in your eye
With these words till death do us part
I will love you with all of my heart

And hold you forever with a love so strong
For better or worse from this day on
I've had a dream since I met you every night
And you've been in my dream wearing white

I made a wish after our first kiss
That one day we'd say I do
Somehow I knew that we'd end up like this
Today my wish came true
With this ring I make you my wife
I will love you for the rest of my life

Chorus

With these words til death do us part

And hold you forever with a love so strong
For better or worse from this day on
I've had a dream since I met you every night
And you've been in my dream wearing white
