I never thought that there could be a girl
With eyes as bright as the stars
I really thought that in a world
Like this you could only go so far
But you will (x6)

[Chorus]:
Say you'll stay (stay) for so long
And the best part about it
It's I believe you
I really do, I believe you
There is a way (way) to belong
In this world that I belong
Without a girl like you
But I don't have to

This guy knows that you could be across the world
But I'm right here where you are
And who knew I would ever find you
A million times I wish upon a star

But you've shown me that if you keep your eyes open
No one could touch you, no one could hurt you
Your heart could never be broken

[Chorus]:
Say you'll stay (stay) for so long
And the best part about it
It's I believe you
I really do, I believe you
There is a way (way) to belong
In this world that I belong
Without a girl like you
But I don't have to

Listen up close
I don't think that you can hear me
I'm singing my lungs out,
To show you what you do to me

It's an amazing feeling
Something I never felt before

Cause that's what love is for
Cause nothing in this world is beautiful as you
And I knew that
There had to be someone like you
Cause nothing in this world is beautiful as you
And I knew that
There had to be someone like you
Cause no one in this world is perfect for me as you
Now tell me that I'm perfect for you
