"You easily get angry over trifles"
"Take that seriously because it's important"
"Please, don't lose your temper, don't get excited"
"I still have a great deal more to tell you"

I want to see you again someday
So, leave me alone. Away with you!

"You are good for nothing, also mocker"
"You are rotten at inside and outside"
"Tidy yourself up! Shame on you!"
"I don't dislike you, but I don't make friends"

I want to see you again someday
So, leave me alone. Away with you!

I want to see you again someday.
So leave me alone. Away with you!
Everyone told me that I was wrong
I have nothing to do with it!
They gave me a lot of advice
I don't want to have anything to do with you!

Thank You...
