Hey girl,  
I dont wanna be like you,  
I dont wanna be like the sunshine that shapes your  
hair,  
hey girl,  
lines intercept lines,  
they pass trough other lines,  
in a pond,  
in a lake,  
in the ocean.

And here comes the question : is it better to love a  
desire?  
Or maybe a memory?  
Or maybe yourself?  
Or nobody else than you?

Why do I ask these questions ?  
Is it just because I already know the answers?  
Oh my!  
Oh why?

Well, I'm not tryin to be alone,  
but I dont want anybody else  
but you : my abstract love.
