### **"All Birds Fly Home"**

Visit "[All Birds Fly Home](#)" on [MotoLyrics.com](https://MotoLyrics.com)

(Piano through the entire song)

Flew away from the place they knew they belonged  
Felt the wind make a path through the clouds  
Their bodies left still their hearts stayed

Chorus: They flew away they flew away  
But the birds always fly home  
They flew away they flew away  
But the birds always fly home  
The birds always fly home

I always try to fly away like the birds,  
can't ever leave this place  
My wings are in chains  
When I break them I'm just faking  
I know this is where I'll stay

Chorus

Call my name Home again (call my name)  
Call my name Home again (call my name)  
Call my name Home again (call my name)  
Call this bird home again (call my name yeah yeah)

Chorus (two times)
