[SPOKEN]

When we had to part,  
That's when I knew,  
Baby,  
It's gonna be a cold cold winter without you.

The snow is fallin' on the ground  
The wind is blowin' all around  
From June until September  
I always will remember  
But it's a cold cold winter night

I miss those summer days with you  
The silly things we used to do  
And since we're not together  
I need you more than ever  
But it's a cold cold winter night

True, summer's great for havin' fun  
But you

I sit at home and watch the storm  
Wish you were here to keep me warm  
Can't wait till next vacation  
I'll see you when that day comes  
But it's a cold cold winter night

Can't wait till next vacation  
I'll kiss you when that day comes  
But it's a cold cold winter night  
Can't wait till next vacation  
I'll love you when that day comes  
But it's a cold cold winter night  
Can't wait till next vacation  
I'll love you when that day comes
