When I think about all the things that I've been through  
I should thank my lucky stars  
I'm not exactly old but I'm not that young  
I don't know which I've done more damage to  
My liver or my heart  
And I've got 16 years of this town in my lungs

I look around cause I know there's gotta be a better way  
I keep moving on  
You get so down  
There comes a time you gotta look at yourself and say  
What am I doing wrong?

I don't mind if I get strung out  
If she picks me up when I'm down  
I need someone to love  
And I think I might need a drug  
I can put my arms around

Well there ain't much that I can give to her  
But rest assured I'll give it my all  
It's hard to make it big when you're tryin' to make last  
call

I'll break my back tryin' to track down some cash and  
make it out  
When all I need is her  
She took my heart out of the can before the trash was  
taken out  
And I owe thanks to her

I don't mind if I get strung out  
If she picks me up when I'm down  
I need someone to love  
And I think I might need a drug  
I can put my arms around

Lights out  
Don't you worry, let me get the next round  
No wife, no life  
Just a past and some useless stripes  
And the grass ain't so green over here on my side

But with her around there's a chance it'll be alright

I look around cause I know there's gotta be a better way  
I keep moving on  
You get so down  
There comes a time you gotta look at yourself and say  
What am I doing wrong?

I don't mind if I get strung out  
If she picks me up when I'm down  
I need someone to love  
And I think I might need a drug

I don't mind if I get strung out  
If she picks me up when I'm down  
I need someone to love  
And I think she might be the drug  
I can keep my arms around
