Stay away from my baby  
Stay away from my girl  
Stay away from my baby  
Don't you come around here anymore

Don't you come here, just get lost  
Turn around and be off  
Find a short pier, take a long walk  
She's a little more than all I've got

Stay away from my baby  
Stay away from my girl  
Stay away from my baby  
Don't you come around here anymore

Disappear, run along  
Back to hell, be gone  
If you stay here, you will find  
That she's a little more than all I've got

Stay away from my baby  
Stay away from my girl  
Stay away from my baby  
Don't you come around here anymore

Take your reputation and your sad long list  
Your really silly hair and your ugly sunglasses  
We'll just shake our heads as you ride away  
Don't matter where your going just as long you don't  
stay

Stay away from my baby  
Stay away from my girl  
Stay away from my baby  
Don't you come around here anymore  
Stay away (from my baby)  
Stay away (from my girl)  
Stay away from my baby  
Don't you come around here anymore
