I can't reach your feelings of love ..."awaste"..
And all the things that I wanted to say ...ashamed..
By the rules of this forgotten life ...you're wrong..
You break down the system of love
And you died simply on my hands
Never mind what now people say
You're gone

Here's my denial on fake truth you stand
You are so weak can't find your name
My tears upon you will make you believe
Yet I forgive you and that's when it comes to an end

I can't reach your feelings of love ..."awaste"..
Feel so cold from the touch of your hand ...in tears..
You lost all of the dreams you once had ...for what..
You break down the system of love
And you died simply on my hands
Never mind what now people say
You're gone
