I've shown her Moon in cases
A Man of one day runes
I saw her coming home from school
But only beer was on my mind
Hey chick, come on let's brake it
Let's fake it, I want this done
She said - "Come one, let's dance
tonight!"
I said -

Come on let's sing The Song!

She wants it cheap and cracking -
How 'bout a song for free?
I've seen Jean coming dragging
Dragging pizza home
"I want to break Moon-Man"
fine!
And brain-men start to puke
I would have brought some beer and chicks
And no more pizza on my mind
Heating in between
Getting in between
I want to see her brain!
Yeah, it's gotta be clean!
How 'bout her legs?
Oh look my here...
STOP!

Come on let's sing The Song!
