Look out to the heavens
Tell me what you see
This paradise it feels so nice cause you are with me
Hold me in your arms as we drift beneath the sky

Look up to the moonlight
Let's count the stars above
I hear what they're saying
They're sending us their love as we dance the night
away

Thru our lives all the chances we take
Fill my heart, I can't wait

This love
I still can't believe it's true
My love
My love will always be for you
This love
I always know our love is true
My love do you know how much I love you

Make this last forever until the end of time
Here we are together all the best in life
Hold me in your arms and our dreams will come alive
I will always treasure all the things we do
I will leave you never
My heart belongs to you long as we're together
I will always love you

Thru our lives all the chances we take
Fill my heart, I can't wait

This love
I still can't believe it's true
My love
My love will always be for you
This love
I always know our love is true
My love do you know how much I love you
I love you

Love forever,ever,ever
Here together
Leave you never,never,never
I'm forever
All we weather,weather,weather
Leave you never
Love forever,ever,ever
Let's stay together

Thru our lives all the chances we take
Fill my heart, I can't wait

This love
I still can't believe it's true
My love
My love will always be for you
This love
I always know our love is true
Do you know how much I love

This love
I still can't believe it's true
My love
My love will always be for you
This love
I always know our love is true
Do you know how much I love

This love
This love
My love
This love
This love
My love
