How many times must I say I love you
And what will it take for you to believe in me
Cause I love you with all of me

If I can't love you I won't love anyone
If you won't let me love you
My life will be done

Because I love you with all of me
Yes I love you with all of me

With all of me, with all of me
Loving you sets me free
With all of me, with all of me

Loneliness is only a game we play
Why are we running away
Hope is just the way that I keep from breaking
Heartache is the price that I pay
Hey

With all of me, with all of me
Loving you sets me free
With all of me, with all of me
Oh all of me
