"Kiss Goodbye"

Hush now baby don't you cry
One last look then a kiss goodbye
I know my will and I worked so hard
Waiting, crying.
So I placed my bet on just one card
Hoping, waiting for my time.

I feel it coming, I'm at my breaking point

Dreams they hold the key
When we need to be set free
And I know that you've been trying.
Can't you see inside of me
And the things I want to be
Don't close the door you see them dying

Step by step I'll take my time
If you show your heart I'll show you mine
I can't make your wish come true
And I cannot live my life through you

Your change of mind cannot change my heart

Dreams they hold the key
When we need to be set free
And I know that you've been trying.
Can't you see inside of me
And the things I want to be
Don't close the door you see them dying

I said yes, I should say no
Did I stay, I meant to go
Another reason why I wanted you to know

Dreams they hold the key
When we need to be set free
And I know that you've been trying.
Can't you see inside of me
And the things I want to be
Don't close the door you see them dying
