I remember you I remember the first time we met I may  
be a sentimental fool Forever in your debt For  
something I cannae forget I remember you I remember  
the first time we spoke The sound of your voice like a  
lover's tongue Got in my ear when I'd just begun To  
wonder if springtime was through I remember you How  
do we change so easily? You'll always be a part of me I  
thought you'd never go It shows you what I know I  
remember the first time we slept What a surprise to  
wake up to Someone I hardly knew From a sleep to a  
dream come true I remember you
