Take Us Away
Mission Control, Do you copy?
Everything is falling
Everything is falling
Fall Down
Take our identities away
Ready set on your cpu command
Contract signed locked in forever
Handed over to you

Conveyor belts assembly lines
Products of Unconciousness
Bar codes serial numbers
Scan into a world of less

Invisible
We are becoming
Invisible
We work together to create a final masterpiece
Every bolt and every nut
Twisted tightly fastened shut like your hands
Programmed into automation
We work together one by one to become

Scan Into A World of Less
Scan into unconciousness
