Well I'm trying to put it all  
It all back into place  
The way things were before  
Before I started the race  
Oh the way I used to look  
And the way I used to laugh  
And the way I used to carry myself  
Weightless on my back  
Oh but you just want the middle ground  
The easy walk we took  
And you would never think  
To take a second look  
Oh so backwards and vertical  
The way I used to talk  
Yeah you liked that there was a mystery  
And you like that I faked a rock  
Oh and you liked that you didn't need me  
And you liked that I liked to steal  
But now I'm on my way  
I'm on my way to real  
And I'm putting it back together  
Like a busted plastic plane  
I need a lot of glue and I've got a lot of pain  
And I'm sorry if that scares you  
Sorry that you're stuck  
And I'm sorry that I lied to you  
When I said that I would never give you up

Don't say goodbye yeah just say goodbye  
Don't say goodbye yeah just say goodbye  
Say it just say goodbye...

Oh and so it's fear that keeps you  
Well it keeps you all locked in  
You see no way out and I see no way in  
Well you are the mouth  
The mouth on my chin  
You are my disease  
You are my sin  
And you scream don't leave me here alone  
Don't leave me here to lose

I've got a big voice  
And I'll do anything for you  
Just give me one more chance  
Give me one more try  
I promise I won't kill you  
And I promise I won't lie

Well yes I hear you calling  
Through your booming dark braid  
Yes I hear you calling  
And you're asking me to stay  
But I have heard you before  
Before I soothed your rash  
Before I stopped the itch  
And I'll never, ever, ever take you back

Don't say goodbye yeah, just say goodbye  
Don't say goodbye, yeah, just say goodbye...
