Nothing but the sky now
I'm headed westbound
Take the freeway
Take the freeway

I'm all done
My body is tired
Late nights
Bottles talk

I'm all set
Alone in my car
A full tank of gas
With all the windows open

Nothing but the sky now
I'm headed westbound
Take the freeway
Take the freeway

Got the music on
For the best night driving
And when the blue hits
Another day is gone

Nothing but the sky now
I'm headed westbound
For the best night driving
Take the freeway
Nothing but the sky now
I'm headed westbound
Take the freeway
Take the freeway

Nothing but the sky now
I'm headed westbound
Going to take the freeway
Take the freeway
Take the freeway
