She stands alone on the dance floor of broken glass
And chalk outlines the drugs
She takes act quickly as they burn away her beautiful
mind
Juliet the past never dies
It lives on while you sleep in this disguise
Juliet the past never dies
Juliet the past never dies
A tired shroud of altered truth paper thin
I see right through kill your demons before they kill you
Juliet the past never dies
Juliet the past never dies
Juliet the past never dies
It lives on while you sleep in this disguise
You've found a home.
