"Save You"

Visit "[Save You](#)" on MotoLyrics.com

You took us for a ride
Stone face and no twitch in your eye
We've always played the fools
Deep in the suburbs we had no clue cause

We want to save you
Oh let us save you
They want to save you
They're gonna save you too but
We don't want to change you
But they're gonna change you anyway
So let us save you
We want to save you too

You have no place to hide
You've run out of lame alibis now
Who is the fool
And there's nothing that we can do

We want to save you
Oh let us save you
They want to save you
They're gonna save you too but
We don't want to change you
But they're gonna change you anyway
So let us save you
We want to save you too
