Oh  
Oh  
Oh

Why you talking all that talk  
Who you trying to impress  
Think you better check your style  
That might have worked before but I ain't having it  
Show me that you got the touch  
Hear the words that I don't say  
Gotta read between the lines  
You gotta learn this song  
Cause

I wanna be played  
Like a sweet guitar  
Played like a slow jam in the dark  
Up on the roof  
You know what to do  
To get to me  
I wanna be played  
Like a violin  
Make the string talk with your finger tips  
Never go to fast  
Gotta understand  
The way I need too be played

It's not about the way you wrote  
Your making it too obvious  
Try to be original  
You gotta learn me  
Don't be in such a rush  
I can be your symphony  
Listen to me all night long  
If you give me what I need  
I can be your favorite song

I wanna be played  
Like a sweet guitar  
Played like a slow jam in the dark  
Up on the roof  
You know what to do

To get to me  
I wanna be played  
Like a violin  
Make the string talk with your finger tips  
Never go too fast  
Gotta understand  
The way I need to be played

You make it just like that  
Come on do it again  
Were going to get this right  
Even if it takes all night  
Ooh  
Oh oh  
Ya eh ya  
Yeah  
Do you feel me  
That's right  
Take it nice and slow

I wanna be played  
Like a sweet guitar  
Played like a slow jam in the dark  
Up on the roof  
You know what to do  
To get to me  
I wanna be played  
Like a violin  
Make the string talk with your finger tips  
Never go too fast  
Gotta understand  
The way I need to be played

Played  
Like a sweet guitar  
Played like a slow jam in the dark  
Up on the roof  
You know what to do  
To get to me  
I wanna be played  
Like a violin  
Make the string talk with your finger tips  
Never go too fast...
