I didn't know my name - my girlfriend is a pain  
My mom and dad they reallt freak me out  
I'm really fucking fried - why am I alive?  
Mom and Dad they always scream and shout

I was a high school psychopath - part two  
High school pyschopath - fuck you  
High school pyschopath - like you  
High school pyschopath - GO

School so fucking lame - there's rats inside my brain  
My mom and dad they reallt freak me out  
I'm really fucking fried - why am I alive?  
Mom and Dad they always scream and shout

I was a high school psychopath - part two  
High school pyschopath - fuck you  
High school pyschopath - like you  
High school pyschopath - GO

I'm all alone - it's just me  
I want no part of LSD  
Your ruffled hippy vest looks great  
But it's no longer '68  
Cut you hair you gaddamned fool  
Please understand that I hate you  
Jump off a bride - and please us all  
They'll really miss you at the mall  
There's something crazy in my head  
All I wanna do is cry - I can't figure out just why  
All I wanna do is cry - but I'd rather see you DIE!
