Things went black and you're outta your skull  
Ed Wood film come to life  
Rent's not paid and you're hating your life  
Some dude just fucked your wife

No one cares if you live or die or if you even exist  
You got the brains of a rat and the manners too  
And you're really fucking pissed

Whatever happened to Philthy Phil  
Is gonna happen to you

No one cares if you live or die or if you even exist  
You got the brains of a rat and the manners too  
And you're really fucking pissed

Whatever happened to Philthy Phil  
Is gonna happen to you
