Girl, you got those hands that heal
Help me get in touch with what I feel
Cause you understand and you sympathize
And you know me best it's no surprise

When you're with me there's a light and I can see my
way
When you speak to me it's a song and I know what to
say

Girl, you got those eyes that see
Help me find the good that's inside me
Cause you're the only one that really knows
How the feeling comes and why it goes

When you're with me there's a light and I can see my
way
When you speak to me it's a song and I know what to
say

When you're with me there's a light and I can see my
way
When you speak to me it's a song and I know what to
say

When you listen there's a hope and I know I'm being
heard
When you smile at me then I know that we don't have to
speak a word

When you're with me there's a light and I can see my
way
When you speak to me it's a song and I know what to
say
