"Deep In The Night"

Visit "[Deep In The Night](#)" on MotoLyrics.com

Deep in the night I was awakened
By a sound, sound what sound like pain
I jumped up, right out of my window
And your eyes they were shinin' in the rain

I can't stand you in the day
I scream and I run away
But I love you baby
Deep in the night, deep in the night

Deep in the night, I go out creepin'
For a light a justa little taste
I get my thrill you come out peepin'
With a forty-four and that look on your face

I can't stand you in the day
I scream and I run away
But I love you baby
Deep in the night, deep in the night
