Freddie I know  
When your time comes it won't be pretty, no  
You reap what you sow  
You and your friends  
The Trojan horse you came in left a stench  
A carcass in the trench

Freddie one day  
All the workers you led astray  
Will make you pay  
Oh Freddie, you should know  
Can't punish people 'cause your hair won't grow  
It's alright, just let go

Freddie, I know  
You waved a banner at our latest show  
How so?  
And why not the expected slander?  
You made me feel like Zara Leander  
Just let go
