You stopped making sense  
You stopped making sense  
You forgot about your friends  
I want to come closer  
I want to come closer  
I want to come closer  
That's all I want

Since you let God in  
You believe in sin  
But of course there's no such thing  
Just like there's no Santa  
No equality before the law  
No people without flaws  
You forgot all about us  
And for what cause?

You believe the lie  
Saying you won't die  
I know you were scared but so am I  
That's why I can't lose you  
Whatever they told you  
I'm dying to hold you  
Don't let them blindfold you  
Don't say goodbye
