It's like walking on black ice yeah
It's like falling with every step you take
It's like breathin' underwater
It's like breathin'
Try to suck it in, got to push it out, or choke it on down
Oooooooooooooohhhh

Chorus:

Electric you know it's going to hurt
This current when I plug in with you to take my turn
Discouraged there is still a lot to learn
Defrost it and I'm left here alone with freezerburn

It's like bleedin in my heart yeah
It's like bleedin
Pumo it in bleed it aout
It's like fallin on black ice yeah
It's like dying
Slow motion on the way down til you burn out
gooooonnnnnne

Chorus:

Electric you know it's going to hurt
This current when I plug in with you to take my turn
Discouraged there is still a lot to learn
Defrost it and I'm left here alone with freezerburn

Slow motion on the way down, on the way down
Til you burn out goooooooonnnnnne
Slow motion on the way down, on the way down
Til you burn out goooooooonnnnnne
Bleedin' in my heart yeah!

Chorus:

Electric you know it's going to hurt
This current when I plug in with you to take my turn
Discouraged there is still a lot to learn
Defrost it and I'm left here alone with freezerburn
Discouraged there is still a lot to learn
Defrost it and I'm left here alone with freezerburn
