### "Break Up Girls!"

Bunny girls slapped around  
You like boys to control you

Hit me please strike again  
Sadistic girls I don't get you

Summer girls mad for love  
Unleash hell on yourself

Knife the heart bruised and used  
Violent boys I don't get you

Break up girls you might like it  
Break up girls you might like it  
Break up girls you might like it  
Please please please please

Bunny girls hot for love  
Your fur is bloody and torn

Hateful boys alcohol  
Your bunny's down and she's out

C'mon girls take a stand  
No one hurts you like you do

Pathetic boys fuck you yeah  
Off to eternal damnation

Break up girls you might like it  
Break up girls you might like it  
Break up girls you might like it  
Please please please please
