Bum badum badum...

Looking for love  
Looking for happiness  
When will it come my way

Ready for love  
Ready for happiness  
I hope it comes today

Oh, it hits you like a ton of bricks  
When the right one comes along  
And it always gets you so confused  
That you can't tell right from wrong

Looking for love  
Looking for happiness  
I need some love to brighten my day

Bum badum badum...

Looking for love  
Looking for happiness  
When will it come my way

Ready for love  
Ready for happiness  
I hope it comes today

Oh, it hits you like a ton of bricks  
When the right one comes along  
And it always gets you so confused  
That you can't tell right from wrong

Looking for love  
Looking for happiness  
I need some love to brighten my day

Bum badum badum...
