Magic moon

Clair de Lune

Magic moon

Clair de Lune

Magic moon (magic moon)

Clair de Lune (Clair de Lune)

Shine on the lover

Of my dreams

Light up a pathway

Leading her straight to my arms

Send down your lovelight

Magical queen of the night

Magic moon (magic moon)

Clair de Lune (Clair de Lune)

Sprinkle your moonbeams

In her hair

She'll be an angel

Twinkling like stardust

Oh answer me answer me

If you hear my prayer

Oh where is the loving for me to share

There in the depth of night (?)

When she'll come my way

But until that night

I'll forever pray

Magic moon above

Won't you send me someone

To love

Magic moon

Clair de Lune

Magic moon

Clair de Lune

Magic moon
