What do I do in December
Winter's playground
Hopes are high
But my dreams can't be found
Watching it snow I remember Christmas kisses
Under mistletoe
I know I'll be missing
Christmas Angel
Send me back my love tonight
Christmas Angel
Bless our hearts shine your light
Maybe change'll bring a little Yultide cheer
If you send me my own Christmas Angel by this New
Year
I'm not unpacking the tree lights
No not this year
Why should I
Santa pass this roof by
No there'll be no window shopping
I'm not stoppin'
There's no holiday when you feel this way
Christmas Angel
Send me back my love tonight
Christmas Angel
Bless our hearts and shine your light
Maybe change'll bring a little Yultide cheer
If you send me my own Christmas Angel by this New
Year
Tis the season for good will and peace of mind
Now's the time for loving hearts to come by
Christmas Angel
Send me back my love tonight
Christmas Angel
Bless our hearts, baby shine your light
Maybe change'll bring a little Yultide cheer
If you send me my own Christmas Angel by this New
Year
Please send me my own Christmas Angel by this New
Year
