

The Real You

"What It Means To"

Visit "[What It Means To](#)" on MotoLyrics.com

I like the way you move

And I wanna feel the beat inside of you

Right here is the perfect place to start

You'll learn the difference between

Where you're going and where you've been

I finally understand what it means to

Love, Love

Oh oh oh

Just wanted you to know

My heart is made for you

Woowhowho!

And every time I leave it breaks in two

You might be the answer to my dreams

Atleast that's what it seems

It might be the cold

My lungs feel weak

Till I can't even speak

And I've finally found the words to keep you here

Love, Love

Oh oh oh

Just wanted you to know

Love, Love

And I wanted you to know,

You didn't have to go

I thank God I found you

I'm finally somewhere I belong

But not for long

Oh oh, oh oh

I think time will find you

In my arms before to long

And singing along

Oh oh, oh oh

Love

Oh oh ahoh

Love, Love

Oh oh oh

Just wanted you to know

Love, Love

And I wanted you to know that it's killing me to go
