Just take me now and watch it all come crashing down
Just take me now and watch the sun burn on, burn out
Just take my hand and tell me that it's okay, just don't
look away, uh oh
Cause in the blinking of an eye we'll all be gone

Now there's nothing left to say
Sat too long now it's too late
Come tomorrow we'll be gone
And there's nothing we can do
Cause the worst is coming true
It's the ending of us all

Just lay me down and watch the sky engulfed in smoke
The panicked people pass us by, they run, they go
Cause it's too late to try to rearrange this mess that we
made, so we don't
But let me tell you there's no time and no place that I'd
rather be than
Today with you

Now there's nothing left to say
Sat too long now it's too late
Come tomorrow we'll be gone
And there's nothing we can do
Cause the worst is coming true
It's the ending of us all
Lets drop it all and watch it burn
There's no lesson left to learn
Come tomorrow this will all be gone
Cause the worst is coming true
I'm so happy here with you
In the ending of us all
