So this is where we go it alone
This is the last thing I was thinking
But I'm cutting the strings, letting go
The birds above are softly singing
And it's the last thing that I recall hearing
Our love was tangled in its strings
Now this is where we let go
So let go, this is where we go it alone
And this is more than a goal
This is much more than just a mission
'Cause now I need it more than you know
So give me more than just a listen
As if it's the last thing that you recall hearing
As I relinquish this position
Now this is where we let go
So let go, this is where we go it alone
And it was the last thing that I recall hearing
It was the last thing that I recall
So we let go, this is where we go it alone
This is where I let you go
