

The Red Hot Valentines

"Hit The Road"

Visit "[Hit The Road](#)" on MotoLyrics.com

I was thinking of you tonight
And your voice when we used to fight
And your eyes on a blue moon night
And the way I love your smile

Maybe we could get away for a while

You've got something that I've never seen
You like me, I like you, you know what I mean
These days are few and far between
So let's get our shit and we'll hit the road

I was missing the sun tonight
And your arms when I held you tight
And your breath on a winter's night
And the way I love your smile

Maybe we could get away for a while

You've got something that I've never seen
You like me, I like you, you know what I mean
These days are few and far between
So let's get our shit and we'll hit the road

You've got something that I've never seen
You like me, I like you, you know what I mean
These days are few and far between
So let's get our shit and we'll hit the road
